Gillett Entertainment Group is happy to announce that **Jonas** will perform in his home province at **Bourbon Street North on Saturday May 24<sup>th</sup>**.

At the age of 4, his parents knew that Jonas would become a rocker. Thankfully, in September 2004, Jonas was discovered by thousands of Canadian fans with the release of his self-titled album. Montrealers will remember his outstanding performance at the Bell Centre on February 23, 2007. Equally impressed with Jonas' performance was *The Gazette*. "The Montrealer was clearly out to impress at the prestigious hometown gig, unleashing his powerhouse pipes".

At the moment we can hear his radio hit « Until Death Do Us Part », the English version of Francis Cabrel's French song « Je l'aime à mourir ». This single is presently in the Top 10 Radio Chart (#1 of the Top 25 BDS Anglophone / Adult Pop last week).

Now that Jonas has proven himself reaching both the top sales and radio charts be prepared to hot live experience!

If Jonas was just a voice – it would be enough. But add that voice to 1,000,000 watts of charisma and a stage presence second to none and you have a good old fashioned ROCK STAR!!

**A Gillett Entertainment Group and CHOM 97.7 presentation.**
